<p>HEALTH & SAFETY POLICY</p>	<p>Section 0</p>

Eurotest is a well established, client focused construction materials and geotechnical testing organization. Our services are independently accredited for competence and renowned for cost effectiveness, integrity, knowledge and professionalism.

Eurotest recognizes it has duties and responsibilities to all stakeholders including, our staff, clients, our client's clients, sub contractors, suppliers, accreditation authorities, regulators, our community and the general public to protect them or adversely affect their health & safety through our acts or omissions. We expect the same from our stakeholders and actively work with them to achieve this common goal.

It is our policy to

- Provide adequate control of the health and safety risks arising from our work activities
- Consult with our employees on matters of health and safety to ensure mutual learning, understanding and health & safety improvement
- Provide a healthy and safe working environment including plant, equipment, substances and procedures
- comply with the law of the land with regard to health and safety legislation
- provide information, instruction and supervision to staff
- prevent accidents and ill health caused by working activities
- review our policies regularly
- to monitor and measure the achievement of our health and safety policy
- implement a wider occupational health and safety management system based on the requirements of BS OHSAS 18001: 2007 *Occupational health and safety management systems*

It is the responsibility of the Board of Eurotest to ensure this policy is fully implemented and complied with, supported by the Health & Safety Director.
